Korean startup Urbanbase transforms interior design with 3D solutions

2023.08.29 10:07:01 | 2023.08.29 12:07:12

Urbanbase Inc., a South Korean startup specializing in a 3D spatial data platform, is attracting investors with its artificial intelligence-driven interior design solution, Autodesk, which enhances customer engagement in home interior design.

“There is a growing demand for personalized interiors with individual identity when remodeling homes,” said Ha Jin-woo, founder and chief executive officer of Urbanbase, in a recent interview with Maeil Business Newspaper. “We offer comprehensive solutions for creating personalized spaces.”
